I trust everyone is staying healthy and calm before the "stress?" of the holiday season.

To waken interest and kindle enthusiasm is the sure way to teach easily and successfully"(Tyron Edwards)

Plagiarism has always been a problem, but now with the Internet and information so available, we teachers have to know what's what. The following web sites deal with just that. These links brings you to various article on plagiarism, including methods for detecting plagiarism.

Math for Elementary School Kids

"Teach R Kids Math is a Web site with a large assortment of interactive lessons that demonstrate basic mathematical concepts. The material ranges from basic counting for preschoolers to more advanced topics for elementary school students. Online worksheets help children practice multiplication, division, rounding, fractions, number sequences, and much more. Some of the activities are timed, which allows the child to see his/her improvement. The site "has been designed by children and adults," making it especially tuned to the most efficient ways of conveying information."

The Thrill of Flight is a Grade 6 science resource from LearnAlberta.

<http://www.learnalberta.ca/ThrillOfFlight/ThrillOfFlight.asp>

Developed at the University of Connecticut, "The Literacy Web is designed to promote the use of the Internet as a tool to assist classroom teachers in their search for best practices in literacy instruction, including the new illiteracies of Internet technologies". Check it out at:

<http://www.theeducatorsnetwork.com/main/resourcefeature.htm>

This next link is a database of lesson plans varying in subject from dance to math to science. I think it's worth taking a look at.

<http://www.theeducatorsnetwork.com/main/lessonfeature.htm>

The Learning Company has a whole set of links for teachers. Take a look!
